

# Titan 44'6" 3-Axle THINWALL™ Aluminum Walking Floor Trailer

Now in  
service  
with MJO  
Haulage  
Ltd.

## CUSTOM BUILT FOR:

### 2003 Recycling and Waste Management Exhibition Birmingham, England

For the 2003 Recycling and Waste Management Exhibition, Titan Trailers takes pride in introducing its original THINWALL™ design for waste handling and transfer trailers.

Titan has emerged as North America's leading innovator in smooth-sided trailers with its patented THINWALL aluminium side panel. This unique extruded aluminium horizontal panel enables waste haulers to improve efficiency and profitability on and off the road. The smooth-sided exterior improves fuel performance while the hollow-core panel profile

protects the exterior from damage caused by the waste materials inside.

Titan has specialized in trailer innovation for more than 30 years. Its focus on purpose-built custom manufactured trailers has driven the company to continuous improvement of its engineered solutions for individual customer needs.

The THINWALL panel is just one example of Titan's commitment to be the best business choice for truck owners and fleet managers everywhere.

## JOB PROFILE

- profitability requires minimal cost-per-load based on maximum interior load capacity, high fuel efficiency, low running weight and minimal downtime.
- effective performance and customer satisfaction require rapid on- and off-loading with maximum reliability.
- long-term return-on-investment requires low operating and maintenance costs with continuous uptime plus maximum residual value.

## KEY FEATURES

- patented THINWALL horizontal hollow-core extruded sidewalls
- KEITH® Walking Floor®
- heavy-duty push bumper
- bolt-in kingpin
- hydraulic tarp system

Strength Through Innovation
